#### RECENT MINING DECISION IS CONSTRUED

The following letter has been sent out from the land office, regarding the construction to be placed upon a certain mining regulation:

Washington, Dec. 17, 1909.

Sirs—The attention of the department has been called to the last clause of paragraph 41 of the mining regulations, approved March 29, 1909, which provides as follows:

"The vein or lode must be fully

described, the description to include a statement as to the kind and character of mineral, the extent thereof, whether ore has been extracted and of what amount and value and such other facts as will support the applicant's allegation that the claim contains a valuable mineral deposit."

It seems that the expression, "the extent thereof" is being construed as meaning that the applicant must affirmatively show by proof of exploration that the vein exists in fact throughout the whole length of the claim.

This construction of the paragraph is erroneous. By the words quoted it was intended to require the claimant to show the existence of a vein in such workings as he relied on to establish a discovery. By the extent of the vein was meant its size and quality as discovered. That being done, the presumption exists that the vein extends on its strike throughout

the whole length of the claim as located.

The sole purpose of that part of paragraph 41 quoted was to enable the land department to know, so far as applicant can reasonably show, the definite facts upon which the right to the patent is predicted so as to determine whether a valuable mineral deposit exists in the land claimed.

You will give this as wide publicity as possible, furnishing it to such newspapers in your district as may want to publish it or refer to it as a matter of news. Very respectfully,

FRED DERRITT,  
Commissioner.

#### STOCK MARKET

The following quotations are furnished by Broker H. E. Epstine:

Belmont was the only active Tonopah stock that recorded a gain on yesterday's session of the San Francisco exchange, and at the close of the day's session, had advanced two points. Midway dropped one point that was gained during the early part of the week.

Goldfield Consolidated fell back 8 cents while Booth lost one point.

#### Why Send Out of Town for Your Printing

When you can have first-class work done right here, by first-class union printers.

The business man who sends out of town for his printing injures his own business as well as that of others. While on the other hand the man who patronizes home institutions increases the town's pay roll, and thereby builds up his business.

The printers and book binders in the cities of surrounding states do not come here to spend their money.
